Stream VC Co-op Television

The dawn of a new generation of entertainment

The revolution of Over-The-Top (OTT) is exploding and streaming is happening in millions of homes around the world. Now you can watch your favorite LIVE TV programming with MVSSTREAM through VC Co-op.

Is MVSSTREAM right for you?

You need VC Co-op internet, a specified streaming device, a reliable wireless router and your choice of TV package. (No need to wire your home or use a set-top box)

Who is best suited for this service?

- Tech Savvy members (*Self installation is necessary*)
 - Members who want to add local network channels to their internet service
 - Members who currently have streaming devices such as Amazon Firestick and Roku
- This service will not work through a Smart TV platform

Requirements

- Amazon Fire Stick, Apple TV or Roku (*Ultra or Premiere*)
- Reliable wireless router
- Enough bandwidth for the amount of devices in your home
- HD (*current television subscribers*)

Do streaming TV packages have the same channels as current TV packages?

- Yes, except for VC Co-op Community Channels and Music Choice

How do I get streaming service?

- Call VC Co-op Member Support **(608) 634-3136**
