

## CONSTRUCTION CONSENT FORM FOR SERVICE DROP

Private Underground Facilities and/or Hazards

Before we can begin any underground cable construction, we ask the property owner to consent to construction and accurately identify all **private facilities and equipment**. Private facilities and equipment could include, but is not limited to, sprinkler systems, lawn lighting, underground dog fences, external wood furnaces, propane lines and power lines beyond the meter. Vernon Communications construction contractor (White Construction) will have all public utilities identified at your location. By signing below, you are agreeing to:

- Allow Vernon Communications Cooperative to bury fiber optic cable on your property.
- Clearly identify all private facilities to the best of your ability on the **back of this form**. It is understood that in the event of damage to facilities that you did not clearly identify, Vernon Communications Cooperative is not responsible, and you agree to hold Vernon Communications harmless for any damage to those facilities.
- Allow Vernon Communications to contact you to provide construction updates and information on their products and services.

**Underground construction cannot begin until this form is signed and returned to Vernon Communications Cooperative. You can complete the Construction Consent Form online via the QR Code or return this form to the address listed below.** Please flip this page over to sketch where your private utilities are located to the best of your ability. If you have questions, please call (608) 634-3136.

**Complete the  
form online!**

**Customer Sketch of Private Utilities**

Draw a map of your property that includes your home, unattached buildings and driveway. Include private underground utilities.

Circle all that apply:

- Septic/Drain Field
- Power Lines
- Natural Gas/Propane Lines
- Sprinkler Systems
- Underground Dog Fencing
- UG Electrical
- Well/Waterlines
- Wood Furnace Lines
- Other \_\_\_\_\_
